## Jackson 5, Find Me A Girl

I got to find me a girl Oh, I got to find me a girl

Somebody who Can make all my dreams Come true Somebody soft and warm

I know just what I want I've been searching everywhere Can't seems to find her anywhere Could it be you, could it be you Could it be you

I got to find me a girl Oh, I got to find me a girl

Somebody true To make all my lonely nights A thing of the past Someone to make everything All right

I got to find me a girl Find me a girl Find me a girl Oh baby

Somebody who
Can make all my dreams
Come true
Somebody soft and warm
I know just what I want

I've been searching everywhere Can't seems to find her anywhere Could it be you, could it be you Could it be you
