Jackson Browne, World In Motion

Sun going down in the USA Down on Main there's a family sleeping in a doorway Around the corner you can hear the sound People dancing around the golden calf Those who have not, those who have

On the billboards and the T.V. screens They got food and cars and toys and trucks and jeans Like a homeless child's fitfull dreams Smiling faces free from wanting Life's abundances beyond counting

World in motion -- speed your changes Close your distances, find your angels Lose your fears and meet your dangers World in motion

Once we were running through smoke and fire Running into the sun In the rush of youth, for love and truth Our deeds were done Now we awake with a world at stake And a race we run We run

Sun going down on the USA Sun coming up a hundred years away On another world and another time Things like hunger, greed and hatred One way or another, gonna be eradicated

World in motion -- speed your changes Close your distances, drive your angels Lose your fears and meet your dangers World in motion

'Till the world I look out at this world and see Is the world I know this world can be You have a volunteer in me Now come on
