

Jackson United, 21st Century Fight Song

we're gonna march on Washington
the people's will shall be done
wage war on everyone
the devil's work must be undone

oh-oh
stand up and listen
a true patriot's mission
this war of attrition now
we'll keep on marching on

hey! hey! hey!
hey! hey! hey!
hey! hey! hey!
hey! hey! hey!

K Street burns while the working poor sing
follow the money into the West Wing
this is the rapture you've been waiting for
now disappear into your Holy War

oh-oh
why don't you listen?
a true patriot's mission
this war of attrition now
we'll keep on marching on

into the street, through the crowd, you keep running
beating you back, til you're gone, we keep coming
into the street, through the crowd, you keep running
beating you back, til you're gone, we keep coming

oh-oh
why don't you listen?
a true patriot's mission
this war of attrition now
we'll keep on marching on

into the street, through the crowd, you keep running
beating you back, til you're gone, we keep coming
into the street, through the crowd, you keep running
beating you back, til you're gone, we keep coming
into the street, through the crowd, you keep running
beating you back, you're gone, we keep coming
into the street, through the crowd, you keep running
beating you back, you're gone, we keep coming
