

Jackson United, A Better Life

Stop, take a moment and sit down
Right here next to me
Did you ever imagine
As good as this could be

Breathe deeper than that now
Let the ocean air fill your lungs
Smell the flowers in the back yard
Don't worry about getting stung

'cause we're in the good times now
Laugh like you don't know how
'cause we're in the good times

Stress to distress for nothing
But the sake of a good complaint
the drama of the instant
Gets lost in some good restraint

Dim your lights now, for a moment
And try to bring it down a bit
Be careful what you wish for
'cause you can get lost in it

'cause we're in the good times now
Don't act like you don't know how
'cause we're in the good times

Hey going to a better life
and we go

'cause we're in the good times now
Laugh like you won't allow
'cause we're in the good times
