

# Jackson United, Fell Into

Do what you want  
Do what you please  
Take everything  
Bleed with me

Here, dry your eyes  
Let me pacify  
While you justify  
Bleach white the lies

Fell into a better vision of you  
You used to be in love with your ego  
Lay where you fell  
A little slip of your will  
You think you do but you don't know

Do what you want  
Do what you please  
Take everything  
Bleed with me

Fell into a better vision of you  
You used to be in love with your ego  
Lay where you fell  
A little slip of your will  
You think you do but you don't know
