

# Jackson United, Lifeboat

what did you think you'd get with me?  
what did you think that you still needed?  
is this everything you wished it'd be?  
that we can both just be defeated?

i don't remember birthday cards  
i don't remember easter weekends  
i never said this wasn't hard  
but my resolve is getting weakened

and if you're tired of waiting  
well you can rest your heart right on this needle  
and when we're all deflated  
we'll sink in good company  
we're stranded out so deep  
hurry up, this lifeboat might be sinkin'

don't you, let it, all go, wrong  
could you, admit, you were, strong  
enough to swallow all your pride  
enough to be completely finished  
i could just lay here and die  
you can just stay there and live it

and if you're tired of waiting  
well you can rest your heart right on this needle  
and when we're all deflated  
we'll sink in good company  
we're stranded out so deep  
hurry up, this lifeboat might be sinkin'

we'll sink in good company  
we're stranded out so deep  
we'll sink in good company  
we're stranded out so deep
