

# Jackson United, That Curse

Once the first  
Tear hits your face  
The dam breaks  
Drowns like a river

Like a curse it sticks to you  
Slipping in  
Out of view  
Out of you

Argue and argue again  
Test your friends  
Bitter ends  
Better than

You thought that you'd got away  
Not today, not again  
Follows you every new place  
What's in you, not in them

Thought I'd heard  
All these words  
Somewhere else  
Or someone else

Like a curse that threatens you  
Holds your fear  
Draws you near  
They never listen

Argue and argue again  
Test your friends  
Bitter ends  
Better than  
Fate that lost you long ago  
Better show  
Better ends  
Bitter then

You thought that you'd got away  
Not today, not again  
Follows you every new place  
What's in you, not in them
