You don't call me baby  
You call me my name  
But i keep on hoping  
Nothing is changed

We keep o touching  
But we don't feel  
Feels like you're letting  
Your hands off the wheel

What if i just hold on for a while  
Baby there's no drug quite like denial  
Oh my , if this is goodbye

Don't leave me loving you  
Whatever you do  
Don't leave me loving you  
If you tip toe out in the morning  
I need a Warning  
If you don;t feel it tooo  
But whaatever you do  
Don't leave me loving you

If you 're out of this  
When i am all in  
I need a Warning  
Don't leave me loving you  
Whatever you do babe  
Don't leave me loving you babe  
Oh, babe

The sun is setting  
In Purple and blue  
Is there no getting  
Closer to you

Waking up strangers  
California king  
Reaching out for you  
To bring you to me

What if i just hold on for a while  
Baby there's no drug quite like denial  
Oh my , if this is goodbye

Don't leave me loving you  
Whatever you do  
Don't leave me loving you  
If you tip toe out in the morning  
I need a Warning  
If you don;t feel it tooo  
But whaatever you do  
Don't leave me loving you

If you 're out of this  
When i am all in  
I need a Warning  
Don't leave me loving you  
Whatever you do babe  
Don't leave me loving you babe  
Oh, babe
