

Jackson Waters, Give Me Amazing Grace

I don't wanna be stuck in this misery
I've tried my best to make it on my own
But I'm in way too deep so deep that I can't sleep
As I wait for the sun to break the dawn

And I've given up on myself
Given in to someone else

Chorus
So wash away the madness
'Cause You don't care what's happened
You don't even think about the things that I've done wrong
So give me a new start
Create in me a new heart
Pull me in to Your sweet embrace
Give me amazing grace

Now I wanna sing and tell about the mystery
Of how someone can love a wretch like me
You can make a blind man see and You can change their destiny
Of everyone that comes to You and believes

You've gotta give up on ourselves
And give in to someone else

Chorus

You've gotta give up on ourselves
And give in to someone else

Chorus
