

Jackyl, I Could Never Touch You Like You Do

I yearn to touch you in the morning
I yearn to touch you late at night
I can start the fire, but I can't control the flame
The love in your hand not other hand could do the same

I could build a building straight up to the sky
But you can take me higher, here's the reason why

CHORUS

I could never touch you
I could never touch you like you do
I could never touch you
No matter how much I really wanted to
I could never touch you
Like you do
I could never touch you
I could never touch you like you do

The overflow of love keeps flowing
More than any man could ever want
I can swim forever in your garden lake
The magic in your hand, it takes your magic for the dam to break

And I would crawl across burning desert sand
Just to have the voodoo that's in your hand

CHORUS

And when the morning comes
I can feel your heart beat next to mine
Girl you show me all I need to see
You take me where I want to be

CHORUS
