

Jacob Zaborski, Emotions (feat. Piotr Szumlas)

Closed eyes, falling tears
Different things about my situation
Beating heart
Screaming whisper
What shall I do with my life?

I hate myself,
Show me the ray of hope
Open the window
Take me to the limbo
Don't give me your emo
People say I'm an error
I see my soul in the mirror
And now you feel my emo

Bright clouds, pleasant sounds
Something that makes me happy
No guarantee
Please, help me
Why did you leave me alone?

I hate myself,
Show me the ray of hope
Open the window
Take me to the limbo
Don't give me your emo
People say I'm an error
I see my soul in the mirror
And now you feel my emo
Emo

You're still talking
And trust me too much
Believe in yourself
Can you hear me now?

Open the window
Take me to the limbo
Don't give me your emo
People say I'm an error
I see my soul in the mirror
And now you feel my emo
