[VERSE 2:]

Yo, as far as the industry goes

Everybodys a foe

Only a friend when they want you to flow

I done came straight off the plane into another mans session

And spit pain and aint charge him a thing

Had to make my line of respect real thinner

Started getting real hungry

I needed a real dinner

Sin whoever you want, Im kissing them all

Did a track with everybody except Mr. Shakur

To me a plaque aint nothing

But some shit for the wall

And I aint hating on the people who got em

I got a lot of em

But I dont got the money they got

So I aint proud of em

Im proud of me

Cause only I can get the guts out of me (what)

[CHORUS:]
Im going back to the way (yeah)
The way I used to be
I got no love for these n****s (naw)
Cause they aint got love for me (uh)
Im going back to the way (uh-huh)
The way I used to be (yeah)
With no love for these n****s (naw)
Cause they aint got love for me yeah

[VERSE 3:] Even though Im strong The bullshit still be penetrating It aint nothing personal yall Im just ventilating It was starting to make me tense How I put a dent in the game And came back to make more dents More than one hand on the gun Just makes more prints The older I get The Bible starts to make more sense When I drive by and give you the horn I aint flip, Im just handling my business And keeping it going Instead of pieces, Im getting the lumps for real for real And get a n***a ass like I did from the jump Cause usually a problem would help And you always gonna need somebody But all you got is yourself thats why

[CHORUS:]
Im going back to the way
The way I used to be
I got no love for these n****s
Cause they aint got love for me
Im going back to the way
The way I used to be
With no love for these n****s
Cause they aint got love for me yeah
