

# Jade, Jean Jacques

Are you stealing from my art  
My thousand daddies want me to know  
That Im the first to be a god

Looking through a glass of wine  
Every time I say never ever change  
So bleed for me and Ill be strong

With you

Curtains fall  
Im too tired to try  
Even my life falls apart  
Im too tired to smile

With you

Take the first train, kill the first man  
Fuck the first boy, rape the first flower  
Eat the first apple, kiss the nazi  
Piss with jewish makin blowjobs

I love furcoats

For the next days  
Ill take a walk in lust
