

# Jade Valerie, Show Me

Ice cold, you got me on hold  
deal me out enough so I don't let go  
You go fast, slow, keep it on the hush  
leave me empty and happy like a cocaine rush  
You're a cheap king, fake diamond ring  
I'm a brand new toy just icing up your bling  
Going up, down, up down, a little to the side, then back, back, back  
Your empty eyes have hypnotized me  
Got me totally hooked on your lack of sensitivity  
I'm one more name just a way to kill time  
I'll never break your heart but you're sure breaking mine  
Don't wanna know why, just wanna know how  
that damn deadly silence got me screaming so loud  
more, more, more, more

Show me what it feels like  
Show me where it hurts you  
Show me what it tastes like  
Show me what it means to  
Never show a feeling, never let it get you  
I wanna be indifferent like you

On off, you got me on a cross  
Crucified like a martyr, I'm a stone that you toss  
Feeling used up, never be enough  
Trying to decide if it's hate or love  
You're a strobe light, tense and tight  
No matter what I do it will never be right  
So up down, up down, a little to the side than back, back, back, back  
How to unlock your tight locked chest?  
You always win the game, but you never give your best  
more, more, more, more

Show me what it feels like  
Show me where it hurts you  
Show me what it tastes like  
Show me what it means to  
Never show a feeling, never let it get you  
I wanna be indifferent like you

Nobody escapes the losing  
Nobody escapes the tears  
Nobody escapes the game  
No one except for you
