

Jaden Smith, Photograph

She found a photographer
Known faces make her mad
Don't carw about all our fights
Or memories we had it in our bones
Baby girl, we're out of control
Wasting our Energy

Woke up in Tennessee
Only you can piss me off
I am staring at thet hole inside my heart
But all we have is us
Cause you
You just found a special part of me
That's sinkin me by pulling me down
And you are in the middle of the ocean
And i need you right now
If i can 't love you i guess i will drown

She found a photographer
These tears can't hold tchem back
And when i sleep at night
The dreams i have fantasize of yu
Tell me what to sdo

Though i might write a song
Hoped you might sing along
O girl, my head is gone
Our Paris stay O
Incredible i know
Tell me where to go

Cause you
You just found a special part of me
That's sinkin me by pulling me down
And you are in the middle of the ocean
And i need you right now
