

# Jadon Lavik, Just Like You

Take me as I am  
Im lost and Im confused  
Lord what should I do  
Meet me where I am  
Healer I need you  
To do what you do

Cause its just like me  
To be broken before I see  
And its just like you  
To turn this old man into new

Comforter provider  
Protector and friend  
Here I am again  
Asking for your mighty hand  
To lead me once again lead me once again

Cause its just like me  
To be broken before I see  
And its just like you  
To turn this old man into new

I want to be just like  
I want to be just like  
I want to be just like you

I want to be just like  
I want to be just like  
I want to be just like you

Cause its just like me  
To be broken before I see  
And its just like you  
To turn this old man into new

I want to be just like  
I want to be just like  
I want to be just like you

And I want to walk  
Walk by your side  
Walk by your side  
Walk by your side

Cause its just like me  
And its just like you
