

# Jag Panzer, Burning Heart

(lyrics by Bob Parduba)

Cries in the night  
Shadows move through familiar doorways  
History replays  
Leading, repeating mistakes we made

Vice in your eyes  
Burning black with lost compassion  
Cast me away  
Desire is gone when all the passion is lost

Burning heart  
Bleeding on now forever  
Torn apart  
Leading on now forever

I hear your voice  
Echoes emptying on forever  
Silence steals the night  
Calling me back miles away
