

Jag Panzer, Take This Pain Away

(lyrics by Harry Conklin)

One more night alone
There's got to be another way
My love is so strong
Why must we be so far away
Theses feelings inside are
All I have to tide me over
Till we meet again
And take this pain away

Take this pain away (repeat)

Out in the night
So many faces that try and please me
I don't give them a chance
To play around with my heart
I know for sure
It's you and me against the world
It won't tear us apart
Till our hearts beat together again
