

# Jag Panzer, Viper

(lyrics by Harry Conklin)

A flash of his blade turns your screams into silence  
He laughs in your face as your life fades away

King of the night time  
Black as the night and colder than steel  
The VIPER  
Injecting his venom deep inside of your soul  
The VIPER

Lord of the night  
I ride on air  
I will take you down, down

Wicked within turning dreams into nightmares  
Nowhere to go when this cat is on the prowl

He laughs in your face as your dreams turn to silence  
He laughs in your face as your life fades away, away, away, away, away, away, away, away
