

# Jagged Edge, Get A Lil' Bit Of This

I ain't tryin to be funny baby  
But don't get too close ya know what I mean  
I'm nice with it

[Chorus:]

If you get a lil bit of this

Yeah

Then you just might trip

Yeah

I can see her callin me late at night talking bout boy I need that hit

Yeah, JE y'all

Don't make me make you lose your composure

Cause I'm good with this

Oh

I can see her callin me late at night talking bout how I need that hit

That's if you get it, get a lil bit of this

[Verse 1:]

Don't mean to be (?)

But when I sling it down

I can go around for rounds

All the things that I do they might make you crazy

You'll be wondering how

How its early in the day and you wantin me

Straight home from the job still wantin it

Been caught up since she got up, when you got up out my bed

Don't worry you won't lose your spot now

[Hook:]

The way you drop it down

The way you do

The way you turn around

Baby that's a fool

Body so hot

But shes so cool

She make me forget when I'm out with my crew

If you get a lil bit of this

[Chorus:]

If you get a lil bit of this

Yeah

Then you just might trip

Yeah

I can see her callin me late at night talking bout boy I need that hit

Don't make me make you lose your composure

Cause I'm good with this

Oh

I can see her callin me late at night talking bout how I need that hit

That's if you get it, get a lil bit of this

[Verse 2:]

(?)

As soon as I touch down

You'll be waiting there on me

Things I do to your body

Might be illegal

In like 10 other cities

Way I get you from behind you be lovin it

Outside, in the car straight thuggin it

You can look all over but you'll never find this

You better appreciate now

[Hook:]

The way you drop it down

The way you do  
The way you turn around  
Baby that's a fool  
Body so hot  
But shes so cool  
She make me forget when I'm out with my crew  
If you get a lil bit of this

[Chorus:]

If you get a lil bit of this

[Verse 3:]

All the things we do

It should be a law against me and you

...your good ass, too (?)

Everybody mad they want something this true (true)

Somebody got my heart

Shine better than the 22s on my car

I can tell you if you get a lil bit...

[Chorus:]

If you get a lil bit of this

Then you just might trip (you just might trip)
