

Jagged Edge, Lets Get Married (Not The Remix)

see first of all

i know these so called playa's wouldn't tell you this

but im gonna be real

and say what's on my heart

lets take this chance and make this love feel relevant

didn't u know i luvd u from the start yeah

when i think about

all the years we put in this relationship

who knew we'd make it this far

then i think about

where would i be if we were to just fall apart

and i can't stand the thought of it

CHORUS

meet me at the altar in your white dress

we ain't gettin' younger so we might as well do it

i've been feelin you all the while girl

i must confess

girl let's just get married

i just wanna get married

meet me at the alter in your white dress

we ain't gettin younger so we might as well do it

i've been feelin you all the while girl

i must confess

let's get married

baby let's get married

i said i've done it all

but frankly girl

im jus tired of this emptiness

i wanna come home to you

and only you

cuz makin love to just any one ain't happenin'

i just gotta be with you

then you think about

us finishing something we started so long ago

i wanna give you my all

when you think about

maybe us havin sum babies

come on won't you be my lady

forever girl

i'm ready to

commit to you

and i just can't wait for that night

cuz i need you here with me

and let's start a family ooohhhhhh

CHORUS (3 TIMES)
