

Jagged Edge, Watch You

[Spoken:]

Yeah, back again

Y'all know who it is

JE y'all c'mon

Mmm, mmm, mmm, damn girl, doin' it like dat tonight

I'mma just sit right here, I ain't goin' nowhere

[Chorus:]

I can just watch you

Girl from the shower to the bed, I can't help but stare

Watch you

Uh, uh you don't need that towel, you can stand right there

All day I could watch you

I could record you, rewind you and girl I'd still wanna watch you

I'd never get tired of watching you

[Verse 1:]

And I ain't never had nobody, nobody who was so endowed

Tell the truth it's kinda crazy, the way that you walk around

In your jeans or in ya undies, or you can wear just nothing at all

You're the only thing for me and I can't even find one flaw, yeah

[Chorus:]

I can just watch you

Girl from the shower to the bed, I can't help but stare

Watch you

Uh, uh you don't need that towel, you can stand right there

All day I could watch you

I could record you, rewind you and girl I'd still wanna watch you

I'd never get tired of watching you

[Verse 2:]

Sometimes I feel like such a loser yeah, I just can't stop now

Maybe I need another hobby, probably, but watchin' you is playin' now

Baby for real it's like a play scene, and I got tickets to a front row seat

Surround sound and inspectro vision and baby I'm trippin' cause I don't wanna stop now,

No, no

[Chorus:]

I can just watch you

Girl from the shower to the bed, I can't help but stare

Watch you

Uh, uh you don't need that towel, you can stand right there

All day I could watch you

I could record you, rewind you and girl I'd still wanna watch you

I'd never get tired of watching you

[Rap:]

Ridin' dirty in the Benz,

Me and Quick bought em' off the goose and the hen (in the hen yeah)

Uh, it's kinda crazy mixin' them,

Bumper keep drinkin' keep the green in the wind (in the wind)

Club over but we big on the strip,

Stepped up kinda hard front of all of her friends (all of her friends yeah)

Uh, baby I ain't tryna box you in like them men do I just wanna watch you

[Chorus:]

I can just watch you

Girl from the shower to the bed, I can't help but stare

Watch you

Uh, uh you don't need that towel, you can stand right there

All day I could watch you

I could record you, rewind you and girl I'd still wanna watch you

I'd never get tired of watching you

[Bridge:]
I see you
Everytime I close my eyes you be all up in my head
I feel you
And every chance to watch you move it's like right back to that bed girl
Need you
To sign me up for the watchers anonymous
Just sign me up
Ain't stoppin' this (ain't stoppin' this)
Baby all I wanna do is just, just watch you

[Chorus:]
I can just watch you
Girl from the shower to the bed, I can't help but stare
Watch you
Uh, uh you don't need that towel, you can stand right there
All day I could watch you
I could record you, rewind you and girl I'd still wanna watch you
I'd never get tired of watching you
