

Jaguar Wright, The Country Song

What cha wanna talk bout, can we talk about it and handle this maturely
Don't nobody love you baby, nobody begging baby, after troubles that we've seen
I know your tired of walking, tired of digging up the sand , using common cause baby
Just like I'm tired of rice and beans and collard greens, but remember this
When the bill collectors they come a knocking there won't be no stopping when I'm deep inside you
And when the telephone bill won't get paid baby don't worry, you can reminisce about the love you
And when the ??? there won't be no anger, as long as I got you when I'm
I ??? just as long as I got you boo so
If you tell me what's on your mind, we can join hands and find
A place from where we both can climb, and stop struggling, struggling yeah
And if your' telling me how you feel, I can let you know the real
And then we can both just build, and make this thing much better baby
Now I know you want the benz, trying to reach for the style, cause a brothers just trying to live
Know you want the big house baby and a brand new benzo and credit with no bad debt
But you see we got it all with God's blessing, in the comfort
If we just communicate, I'd appreciate cause its got
When the bill collectors they come a knocking there won't be no stopping when I'm deep inside you
And when the telephone bill don't get paid baby don't worry, you can reminisce about the love we g
And when the sinner people pull in on Sunday baby its all right , as long as I got you
Everything is true and cool just as long as I got you
If you tell me what's on your mind, we can join hands and find
A place from where we both can climb, and stop struggling, struggling yeah
And if your' telling me how you feel, I can let you know the real
And then we can both just build, and make this thing much better baby
Make this thing better baby yeah (repeat 4 times)
If you tell me what's on your mind, we can join hands and find
A place from where we both can climb, and stop struggling, struggling yeah
And if your' telling me how you feel, I can let you know the real
And then we can both just build, and make this thing much better baby
