Yea yuh know  
Only you  
Only you

Only you can make me feel, just like a king  
Love you give to me so real  
Makes me give in

[Verse 1:]

Girl, just like magnet to steel  
Your love - keeps pulling me in,  
If its a battle I'll fight for you,  
I have to win  
To prove to you my love. is so deep within  
Its even getting deeper  
Since I reach prison

[Chorus:]

Longing for  
My baby to love me more  
What am I longing for?  
Babylon release the Cure  
What am I longing for?  
My baby to love me more  
What am I longing for?  
Babylon release the Cure

[Verse 2:]

When, when, when, when?  
Can we see each other again  
When, when, when, when?  
Can we see each other again  
I know there's someone, must be there comforting you  
Whenever you need a friend  
I'll make you mine, give me some time, I'll surely make you mine  
It may be long, now forever.  
I vow, to get myself together  
I love you baby, always on my mind, No matter the time.

[Chorus:]

Longing for  
My baby to love me more  
What am I longing for?  
Babylon release the Cure  
What am I longing for?  
My baby to love me more  
What am I longing for?  
Babylon release the Cure
