Ohhh ohhh

From when, from wheeeen

Birds one feather stick together

Just like Bonnie and Clyde

Love you forever

Leave you never

Always by my side

When I'm with you,

You become the reason for life

Glad I met you

Thank Jah for the queen he provides

You become the sunshine

That turn darkness to light (to light, to lllllightttt)

Searching, I'm searching from when

Loving like yours could never end

Searching and searching for someone like you

Longing for love and I've found it in you

Searching and searching and searching

For someone like you and I've found it in you
