

Jah Cure, There Are The Time

These are the times, these are the times when I, these are the times, these are the times

These are times when I, Don Corleone

These are the times when I must get myself together, (times when I, yeahhhhhh)

These are the times when I must get my self together (when I, times when I)

[Verse 1]

This is just the beginning it's gonna get rougher so have you ever planned to give an end

In this dirty system that I and I have been giving in

Rastafari is just the trodding and the living

What you sow is what you reap never let the system make you thoughts be cheap

The Most High's love cherish and keep

Righteousness we all must seek

Reggae de music we use and do it knock the masses off dem feet [x2]

Yeahhhhh, yeahhhhh, yeah yeah, yeah , yeah

[Chorus:]

These are the times when I must get myself together

Times when I look towards my brighter future

These are the times when I must get myself together

times when I, times when I, times when I, times when I, times when I

Look in myself for my people and my future in the children coming (na na yeah)

There is a generation coming and don't you let them down

I won't be running I will be standing on my ground

Preparing it for them so that day when they come forth

Everything prepared and set already

Get it steady cause we are responsible for everything now

So get yourself together I mean right now

The world's gonna be on your shoulder

These are the times yeah

These are the times, these are the times
