

Jahcoozi, Talkin' Your Street

Gentrification across the nations

You do your Sidestep shuffle in ya stunnah shades

I see Street art meets advertising in your face

I see u can't sit down coz your jeans are so tight that your feet are cut off from their blood supply.

Doctor gonna come cut you out them jeans

Doctor gonna come and stop all the gangrene

You see the Doctor and I ain't trying to be mean it's just the hipsters moving in are changing things

Power to the people and the freaks

Power to the people and the geeks

Power to the people with the beats

With the beats with the beats

Wassup

What's going on?

They're taking your street

Wassup

You listening?

They're taking your street
