

# Jahcoustix, On The Way

Yeah I.....  
.....Musical Soldier...  
Yeah I...

Don't wanna be a musical soldier (musical soldier)  
Don't wanna put on a musical uniform (no way)  
Don't wanna be a musical Vampire (musical vampire)  
You can fight fire with fire (fight with fire)

I want to be so creative  
I want to be so inventive  
Buy you a very bra something that I never possess  
Searching for peace and rest  
Music is my life Music I can feel  
Things can't tell you that are imaginary

I want to feel the freedom that I used to be  
One filled with intentions that used to be real  
All that came from blind days, only fighting  
The mission of beauty, I and I must forgive

Don't wanna be a musical soldier (musical soldier)  
Don't wanna put on a musical uniform (no way)  
Don't wanna be a musical Vampire (musical vampire)  
You can fight fire with fire (fight with fire)

Music makes me hear things that I've never ever heard before  
Music makes me see things I've heard in rumor  
Music makes me hear things from a new perspective  
Cuz everything negative that is negative shall become positive

Musical vampire, ambushed in the night  
In this life of signs of wonder  
What have we got to fight  
I want to feel the freedom that I used to feel  
Want to send the intentions that used to be real  
All that came from blind days only fighting  
The mission of beauty, I and I must forgive

Don't wanna be a musical soldier (musical soldier)  
Don't wanna put on a musical uniform (no way)  
Don't wanna be a musical Vampire (musical vampire)  
You can fight fire with  
You can fight fire with  
You can fight fire with fire (fight with fire)

Yeah yeah yeah  
....  
Musical So.....ldier...
