

# Jahcoustix, Special Place

&lt;Its one of those days when you sleep late  
And ya don't care about anything at all  
One of those days out of 24/7  
Where nothing matters at all

Its one of those days when you go to a special place  
And you feel ya mind is drifting away

Far away, far away, take me away to that special place (2x)

Its one of those days when you can't think straight  
And youre missing last nights paradise  
One of those days when you see no light  
One of those days when you feel no pride  
One of those days you run away and hide

Far away, far away, take me away to that special place (2x)

When ya wake up and your feeling weary  
Wanna go back to that special place  
Can't sleep at night cos your afraid of dreaming  
Inna dream realltiy you have to face

Far away, far away, take me away to that special place (2x)

Its one of those days when you sleep late  
And ya don't care about anything at all  
Then you sit there chill and reminisce about ya special place

Far away, far away, take me away to that special place (2x)
