

Jaheim, Waitin' On You

[Verse 1:]

Sit right here girl let me talk to you
Bout some things that we been
going through
Lets do whatever girl and make it last
Gotta take our time
we can move too fast
Now I'm not the type of cat
to hit and run
Girl I swear that you're
my only one
But what I am girl is a loving man
While others just wanna
smack and smash that ass
quick and fast

[Chorus:]

One two what u wanna do
Aint gon' even front girl
I wanna tear it up now
Two three tell me what's it gonna be
U aint gon' get no ? So u better
keep watching t.v.
Look hey u tryna play me like I'm loose
Girl u got it twisted I'm here waitin' on u
Waitin' on u waitin' on u girl u must
be trippin' got me waitin' on u

[Verse 2:]

Baby girl u know I'm stuck on u
I'll do just what u want me to
Whatever it is I aim to please
For your love get on my knees
I wanna touch u right here
Kiss u right there however u want
baby I don't care
But the night's not right then that's okay
I love u anyway, ur ja-ja's here to stay

[Chorus:]

[Repeat x2]

[Bridge:]

After all this time
I've been wit cha baby
Do u wanna act up
stop talkin' slick, u talkin' crazy (crazy)
When u know u mean the world to me
Out of all the places in the world
There's not one place I'd rather be
So stop acting like u wanna be alone
if u felt that way u
would've never phoned
But if the night's not right
then that's okay I love u anyway
you're ja-ja's here to stay

[Chorus Fade Out]
