

# Jailbird, End Connection

What is your relation with ones and zeros ?

What can we do  
when everything is a lie,  
an illusion ?

Part human,

part machine

the evolution of our mind,  
of our dreams has become reality.

Cyberland is nothing more than a collection of fear,  
hope and perception.

We don't exist,

we simply denied our existence by connecting to a machine.

Don't look for an answer

simply find a way out

from our addiction

end connection!
