

# Jakalope, Nothing Nowhere

Oh...

I'm chasing defeat  
Self created- misery  
Where will this end  
Where did it begin  
I won't lie down  
I'm already- down  
I rest my step and fall  
Into the hole

I've closed my eyes  
Not even the start  
To rest my head- so far  
Nothing, nowhere but emptiness

Oh...

Tears of dust burn me  
I'm so tired- and weary  
I've put my feet down  
Firmly- on the ground  
There's no way to overcome  
What I've- done  
I've missed my step and lost all control

I've closed my eyes  
Not even the start  
To rest my head- so far  
Nothing, nowhere but emptiness

Oh, oh
