

# Jake Epstein, Are Love Is Long Gone

are love has come and gone  
but as far as i know  
are love is long gone  
i found the truth in it all  
the lieing the cheating the hurting and screaming  
are love is long gone

like wind, it blew away  
and it was washed away  
to a place far far away from here  
it disappered  
someplace that isn't near  
and i only have fear  
for what is left of us  
you and me  
are love is long gone  
and i cant think or sleep

can it ever be again  
my heart is aching with pain  
i dont want that to maintain  
but i thought we connected  
but are love is long gone from here
