

# Jakob Dylan, Something Good This Way Comes

I got my window open wide  
I got my window open wide  
Got a good woman by my side  
Got a good woman by my side

Now this kind of day has no night  
Yeah, this kind of day has no night  
Ain't got much on my mind  
Ain't got much on my mind

Cause I know Something good this way comes

Now watching the streets filling up  
Watching the streets filling up  
In the shade of the summer sun  
In the shade of the summer sun

Got sweet apple pie on the stove  
Got sweet apple pie on the stove  
The birds they're all flyin' low  
The birds they're all flyin' low

Cause they know something good this way comes

The trouble, doll, is not moving mountains, but  
Digging the ground that you're on  
If it's true that good fortune gives no chase  
We got just what it takes

Collar up on my coat  
Collar up on my coat  
Trucks are pullin' in for the show  
Trucks are pullin' in for the show

Grasshopper jump in the road  
Grasshopper jump in the road  
Kids they're all running home  
The kids they're all running home

Cause they know something good this way comes  
Yeah, something good this way comes

The trouble, doll, is not moving mountains, but  
Digging the ground that you're on  
If it's true that good fortune gives no chase  
We got just what it takes  
Got my window open wide  
Got my window open wide  
Got a good woman by my side  
Got a good woman by my side

Cause I know something good this way comes  
Yeah, something good this way comes.  
Yeah, something good this way comes.  
Mmmm mmm mmmm.
