

Jamai, Wango Tango

The night was young and so was I
When she took me for a ride
And softly whispered in my ear:
Hush now baby, don't you fear
She put a spell on me
Playing with my soul
Slowly undressing me
She made me lose control

Chorus:
She wanted me to wango tango all night long
Wango till the break of dawn
Taste the mango, sweet and strong
She made me lose my mind
She wanted me to wango tango all around
Wango till the roof came down
House on fire, wild romance
Wango tango so intense

She left for weeks without a trace
Showed up with a smile on her face
The kind of magic in her eyes
Is she the devil in disguise?
That night she was crying
I've never leave her more
Man, I was dying
When she made her move on the floor

Chorus:
She wanted me to wango tango all night long
Wango till the break of dawn
Taste the mango, sweet and strong
She made me lose my mind
She wanted me to wango tango all around
Wango till the roof came down
House on fire, wild romance
Wango tango so intense

Her moves on the floor
To me I need some more
To satisfy my soul
It was a fatal attraction
Real love and affection
She made me lose control
She put a spell on me
Playing with my soul
Slowly undressing me
She made me lose control

Chorus:
She wanted me to wango tango all night long
Wango till the break of dawn
Taste the mango, sweet and strong
She made me lose my mind
She wanted me to wango tango all around
Wango till the roof came down
House on fire, wild romance
Wango tango yeah!
