

James, 72

You're going to murder in the name of God
What kind of God you dreaming of
A God of blood not love

So you can get your 72
Virgins to abuse
I hope they kick like mules

War

My Gods bigger than your God
He made the world run out of puff
More important things to do

It's black
It's white
A fight
An elephant grey
There's a universe at stake
We get in the way

Go left
Go right
Straight on
Just do what they say
There's a universe at stake
We get in the way
WAR
