

James Arthur, Emily (utwór dedykowany córce)

Dear Emily,
I really wanna write this carefully
Now that we're a family
It's only You, Your Mum, and me

Dear Emily,
We're gonna live forever happily
I'm gonna ask Your Mum to marry me
But there's some things You need to know
Your papa was a rolling stone
Playing in a sold-out show
Taking all the highs and the lows
But living with an empty soul
And if You ever read the things they wrote
I hope that You can let them go
I was living in a different world
Before I had My Little Girl

Emily,
When I hear You cry,
I'll sing you back to sleep
Do You know, You inspire all my melodies?
'Cause You make me a better man
Than I'll ever be, ever be, ever be
Because of You, Emily :)

Dear Emily,
I saw you way before you came to me
Cause I picked out your name and wrote it on paper
I needed life and life came and gave me Emily
Will I be good enough for you
The truth is I'm afraid of everyone
and anything that could hurt you

Emily,
If you ever feel lonely come sit next me
Since we brought you home with us you're everything
Cause you make me a better man than I'll ever be
Ever be, ever be
Because of you Emily

Emily baby,
You're all I'll ever need

When I'm looking at your tiny feet
I feel your heartbeat here inside of me
I feel a love that I just can't believe
Emily, when I hear you cry I'll sing you back to sleep
Do you know you inspire all my melodies
Cause you make me a better man than I'll ever be
Ever be ever be because of you Emily
