

James Arthur, September

I remember when I met you just before September
You were dancing in the street rocking that pink and leather
Begged my friend for your number I bet you don't remember
That's how we began

I pursued you for a year
I would've waited longer
I know ultimately
it would make the feeling stronger
the first time that i kissed you
i could look in the mirror
and like who i was

I could never wait for yhe weekends
When you would come over
Cause that's when i'd see you again
You're all my strengh and my weakness
You battle my demons
You're still undefeated

Soemtime i get a little bit jaded
Too much pressure just to make it
You smile when i am angry and i hate it
But i will still you for the rest of my life
My crush on you has never faded
Let's go back to bed until we break it
I am gonna love you foe the rest of my life

If you wanted to
I'd start a family with you

I remember being foolish
When i met your mother
Cause she jad that irish charm
Right then i knew i'd love her
That's where you go your heart
When we got back to the car
I knew you were the one

I could never wait for yhe weekends
When you would come over
Cause that's when i'd see you again
You're all my strengh and my weakness
You battle my demons
You're still undefeated

Sometime i get a little bit jaded
Too much pressure just to make it
You smile when i am angry and i hate it
But i will still you for the rest of my life
My crush on you has never faded
Let's go back to bed until we break it
I am gonna love you foe the rest of my life

If you wanted to
I'd start a family with you
If you wanted to
I'd start a family with you

Sometime i get a little bit jaded
Too much pressure just to make it
You smile when i am angry and i hate it
But i will still you for the rest of my life
My crush on you has never faded

Let's go back to bed until we break it
I am gonna love you for the rest of my life

If you wanted to
I'd start a family with you
If you wanted to
I'd start a family with you
