

James Arthur, SOS

Champagne showered down on my pain
Lights fade running round in blind faith
Las Vegas surrounded by the last fakers
Alligators they chew me up and spit me out
You know I've been burning out
I've been calling out for you
I've been calling out for you

s.o.s – save my soul
i've been drowning for too long
s.o.s – save my soul
you know, cause, you know
you're gotta:
throw me a lifeline
throw me youyr heart
i've been waiting a lifetime
calling doe an s.o.s to save my soul tonight

Propeller spinning me away forever
Umbrella shelter me from stormy weather
Lines severed but... I know you been looking out
But you can hear me calling out
It;s yu i ma forever in debt to
Never been the same since teh day i met you
Going down, can ytu come to rescue me?

s.o.s – save my soul
i've been drowning for too long
s.o.s – save my soul
you know, cause, you know
you're gotta:
throw me a lifeline
throw me youyr heart
i've been waiting a lifetime
calling doe an s.o.s to save my soul tonight

throw me a lifeline
throw me youyr heart
i've been waiting a lifetime
calling doe an s.o.s to save my soul tonight

It;s yu i ma forever in debt to
Never been the same since teh day i met you
Going down, can ytu come to rescue me?
