

# James Bourne, Want me like that

Do you remember when we fell in love  
Three times a day we couldn't get enough  
We spent the weekends with nobody else  
I just had to have you for myself  
I used to love the way you called my name  
Thought that it would always be this way  
You held me like you'd never let me go  
I wanna know  
I wanna know  
Do you still want me like that?  
Do you still want me like that?  
It's like  
If you can cast your mind to way back when  
I'd count the days till I'd see you again  
When we spent every second of our time  
Lost in the moment where the stars align  
So crazy bout each other we were blind  
So into you that I could read your mind  
You swore to me you'd never let it die  
I wanna know  
I wanna know  
Do you still want me like that?  
Do you still want me like that?  
Cos it's like you had a change of heart  
At times like these I wonder  
Do you still want me like that  
The simple things  
The secret thing  
Between me and you  
In our own little world  
And what we had  
Where we were  
It was all so unbreakable  
Do you still want me like that?
