

James Fauntleroy, Harmony

We could sing this love together
We're going along
I could listen 'till forever
Where your body go into harmony
When you follow me into harmony
When you scream around (?)
This was a beach, girl
And I'm a streaker
It's nice to meet cha
Can't wait
Take these bitches
I wanna see what you look like next to me
Look like yes to me
Look like sex to me
Is that your feet, girl?
Maybe it's something about your features
Makin' me wanna get you on a feature
And while you goin' high, I'm underneath ya
Sing along
We could sing this love together
We're going along
I could listen 'till forever
Where your body go into harmony
When you follow me into harmony
When you scream around (?)
We could sing this love together
We're going along
I could listen 'till forever
Where your body go into harmony
When you follow me into harmony
When you scream around (?)
We could sing this love together
We're going along
I could listen 'till forever
Where your body go into harmony
When you follow me into harmony
When you scream around (?)
