

James Fox, Hold ON To Our Love (Eurovision 2004)

Maybe Ive been foolish letting you down
Ive been a little selfish not being around
But if I lost you id be helpless inside
Gotta hold on to our love tonight

[Chorus]

Cause now that I found that someone I believe in
And I feel so complete by your side
Its the only time ill ever love somebody baby in my life
We gotta hold on to our love tonight
I know that youve been hurting
The pains in your eyes
I promise you Im changing I feel it inside
I dont know what I would do if it all passes by
We gotta hold on to our love tonight

[Chorus]

Cause now that I found that someone I believe in
And I feel so complete by your side
Its the only time ill ever love somebody baby in my life
We gotta hold on to our love tonight
Some things in life we should treasure
When you find love never let it go
Because now I realise what you mean to me
Cause now that I found that someone I believe in
And I feel so complete by your side
Its the only time ill ever love somebody baby in my life
We gotta hold on to our love tonight
Cause now that I found that someone I believe in
And I feel so complete by your side
Its the only time ill ever love somebody baby in my life
We gotta hold on to our love tonight
We gotta hold on to our love tonight
