

# James Gang, Lost Woman

Don't know where to run to, don't know where to hide  
See my future comin', but I try to keep my pride  
But I lost you, lost you woman  
The only woman, woman who was my kind

She make me lose my money, she make me lose my name  
After what ya done me I can only treat ya sane  
But I lost you, lost you woman  
The only woman, woman who was my kind

But if you come back, I won't be the same  
After what you done me I can always treat ya sane  
Cause I lost you, oh that woman  
Only woman  
Woman who was my kind
