

# James, Gold Mother

Heart of gold heart of gold heart of gold  
One body in my mother's belly  
Chinese dolls, box in boxes  
How do you sail the ship from the bottle?  
How do you sail the ship from the bottle?  
Heart of gold heart of gold heart of gold  
Gold, gold mother, gold, gold, gold mother

I can see the head now  
Between her legs now  
Purple headed alien  
Water logged old man  
In the blood silence  
In the blood silence  
Silence, silence

Cry for me mother cry for me mother Crimean mother cry me another  
My feet and hands won't work  
My feet and hands won't work  
In my baby's body  
My brand new baby's body  
I'll suck my fingers red  
I'll suck my fingers red  
In my baby's body  
My brand new baby's body

I can see the head now  
Between her legs now  
Purple headed alien  
Water logged old man  
In the blood silence  
In the blood silence  
Silence  
Silence  
Silence  
Shut up

In the bright lights and harsh sounds, there's a man  
In green ceremonial robes and mask, dipping a straw through your nose  
Mouthwash of meconium lungs full of meconium  
Heart full of meconium  
Meconium  
Meconium  
Chinese dolls in boxes  
Chinese dolls in boxes

I'll go out the same way I came in  
Chinese dolls in boxes  
And everything you touch  
And everything you love  
And everything you touch  
Turns to gold  
As precious as  
As rich as  
As dear as  
As strong as  
As hard as  
Gold  
Mother  
Past the boundaries of all pain  
Your journey to the edge of death in search of a child  
Gold mother there's only one  
Gold mother and she's mine  
She's all mine

Shut up let's hear it  
Shut up
