

# James Iha, See The Sun

come back to me darling don't stay your heart is free to be  
with someone else who loves and cares and talks to you-it's me  
when you wanna sing do sing and if your undecided you know  
theres no denying how I loved you I'll be around to run to-it's me  
see the sun and what your given  
and every wonder  
see the sun and what your given  
feel the warmth love gives  
to everyone and everything I know you feel the same  
and oh-it's the hardest thing to do and no if you're gone  
will I come find you- I know that in a day or two when  
things are quiet and there's only you, theres no wrong and on  
see the sun and what your given  
and every wonder  
see the sun and what your given  
feel the warmth love gives  
to everyone and everything I know you feel the same  
I told you, I told you that when we fell apart  
I wrote you, I wrote you and asked you for apart of you  
don't deny it  
feel the warmth love gives  
see the sun and what your given  
feel the warmth love gives
