James Lynn Strait, Snot

Intro
Say something for the record, tell the people what you feel
F**k the record, and f**k the people.

Snooooot!!!!!

We're fixin' to take you down
You know we wear the crown
Just got to mess around
Leave your daughters and sisters with me
Down, down for the fattest sound
We're coming to your town
Making you jump around
Someone's got to do it

Can you slow down, this can't be, 'cause you
Know we got, got to have the fat sounds
From s.b., motherf**ker said
Is this your soul found, can't you see
And we're coming to your toooown
Break it, smash it, motherf**kin' snot

Snot, your always knew this, snot
Crew, we're undisputed
Snot, you know we rule your world
Clockin' all dem girls
We're takin' yours&no, we'll never stop
Snot, I've got to tell you once again
Don't try&play my crew, 'cause you can't win
I like to hear the sound when you skull cracks
If you do talk back, feel us attack
We're fixin' to take you down
With a fat f**kin' sound, gonna steal your crown
Not here to mess around
I know you hear my voice
'cause you got no choice
The volume of my crew still undisputed
If you don't move - we gonna roll right over, motherf**ker
Down with the groove - everything gonna be alright
I've got to wow the crowd with a sound so loud
Try & front but you know I'm gonna get down
I got the mike that's right what's at stake
Is afraid you'll hear the truth
You can't take this
