

# James, Play Dead

[Music depresses me]  
Help's on it's way, I'm lost in space  
No protection  
Please come and rescue me  
I've got no friends, an orphan  
Who had faith, who betrayed  
Took only a kiss to give me away  
Who had faith, who betrayed  
Took only a kiss  
To blow you away  
All in my head  
I'll play dead, if you want me to  
if you want me all in my head  
i'll play dead, if you want me to  
if you want me  
Who had faith, who betrayed  
Took only a kiss to give me away  
Who had faith, who betrayed  
Took only a kiss  
to blow you away  
All in my head  
I'll play dead, if you want me to  
if you want me all in my head  
i'll play dead, if you want me to  
if you want me
