

James Reyne, Outback Woman

Fetch me a drink of water
My head was about to bust
She knows I stayed out all night long
She don't make no fuss

She's my outback women
Outback women

Hair down on her shoulders
Her eyes were as black as coal
She's got voluptuous hips
And sensuous lips
She love me and won't let go

She's my outback women
She keeps my fire lit
She's my outback women
She knows how to scratch my itch
Scratch my itch baby

She gave me a pair of moscins (moccasins)
Made out of kangaroo hide
She said James you know I love you
You keep me satisfied

She's my outback women
She knows how to set me free
She's my outback women
She knows how to shake my tree
Shake my tree baby

I took her to town on Saturday
To buy her some trinkets and pearls
I don't play the fool I like to keep it cool
I don't mess with no big city girls

She's my outback women
She keeps my fire lit
She's my outback women
She knows how to scratch my itch
She's my outback women
She knows how to set me free
She's my outback women
Come on women come on and shake my tree
