

James Strange Dream, Miracles

Jesus at the wedding
Turns the water into wine
Some people say if God's still here today
Why can't it happen all the time?
Rain falls from the heavens
To the grape upon the vine
They squish it down and let it sit around
And it turns into wine

Everywhere there's a miracle
You see it all around
Everywhere there's a miracle
You see his love come pouring down

Look around and you'll find it
Look around and you will see
Look around and you'll find it
Look around and you will see

Lazarus of Bethany
Jesus raised him from the dead
Why don't we see that kind of mystery
In the headlines that we've read?
We can see it all around us
Above the suffering and strife
When the flowers bloom or in a mother's womb
It's the miracle of life

Everywhere there's a miracle
You see it all around
Everywhere there's a miracle
You see his love come pouring down

Look around and you'll find it
Look around and you will see
Look around and you'll find it
Look around and you will see
