

# James, Stutter

Tongue split  
In the night  
I woke up in blood  
Red sheets  
Wrapped tight  
Dreamt I was drowning in mud  
Now there's a beast in my mouth  
It's out of control  
Beats with will of its own  
Broken my teeth withdraw my gums  
I think that it's taken control  
Spits out your emotion  
Left a deep impression  
Expression  
Expression, makes me feel more expression  
Life changed  
That night  
As rip chord took command  
Spit balls  
All the abuse  
Were more than friends could stand  
Now I don't think before I speak  
I open my mouth to see  
What comes out  
A whisper or a shout  
Some sanity or a scream  
Spits out raw emotion  
Looking for a deeper expression  
Expression  
Expression  
Expression  
Expression, makes me feel more... expression  
That be me says it all  
That be me has it all  
Expression  
Expression
